Dear Jeff and Chris:

Just circling back with your department to find out when the missing light standards are scheduled to be replaced. I was informed by Street Lighting that it would be in June 2016? Where do we stand on that deadline? Also in my email below I mention the North West Corner of Highland and Santa Monica where there is another missing decorative light with exposed wires (PW cone on top of) - I would like to have that replied as well. Let me know at your earliest opportunity.

Thank you for your assistance.

Subject: Hollywood Media District Decorative Light Standards Hit & Runs February 1st & March 4th, 2016

Dear Chris:

As a follow up to an earlier email in February regarding the Hollywood Media BID's decorative light standards which are located on Highland Avenue as well as Santa Monica Boulevard. As of right now, the Hollywood Media District has had two (2) hit and runs into our decorative light poles. The Bureau of Street Services has removed pole both on separate occasions - the first one on February 1st, 2016 and the 2nd one one March 4th.

How does the BID go about having this lights replaced.

1. Location #1 - Occurred on February 1st, 2016
West Side of Street
1139 Highland Avenue, Hollywood, CA 90038
2. Location #2 - Occurred on March 4th, 2016
West Side of Street
1001 N. Highland Avenue (@Romaine)
3. There are numerous cones at the North West Corner of Highland and Santa Monica near the bus shelter. I have been told that this is from Street Lighting. Can you please confirm if there is a light standard that is missing. There are exposed wires of sorts and I cannot seem to get an answer from the City family.

Thank you for your assistance. Look forward to hearing back on how we can have the decorative lights reinstalled.

Regards,

Lisa Schechter
